-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This Final Office action is responsive to Applicant's amendment filed March 30, 2004.

Claim 1 has officially been amended. Applicant also appears to have amended the dependency of claim 5, although claim 5 is listed as original.

Claims 1-7 are presented for examination.

Response to Arguments

2. Applicant's arguments, see pages 4-7 of Applicant's response, filed March 30, 2004, with respect to the art rejection of claims 1-7 have been fully considered and are persuasive. The art rejection of claims 1-7 has been withdrawn.

Applicant's arguments filed March 30, 2004 with respect to the rejection of claims 1-7 under 35 U.S.C. § 101 have been fully considered but they are not persuasive. Applicant argues that claim 1 has been amended to incorporate a useful, concrete, and tangible result; however, Applicant has not addressed the issue of the failure of the claimed invention to incorporate the technological arts. Remedying the issue of technological arts is likely to sufficiently address the issue of useful, concrete, and tangible subject matter. Consequently, the rejection under 35 U.S.C. § 101 is maintained.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Art Unit: 3623

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-7 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The basis of this rejection is set forth in a two-prong test of:

- (1) whether the invention is within the technological arts; and
- (2) whether the invention produces a useful, concrete, and tangible result.

For a claimed invention to be statutory, the claimed invention must be within the technological arts. Mere ideas in the abstract (i.e., abstract idea, law of nature, natural phenomena) that do not apply, involve, use, or advance the technological arts fail to promote the "progress of science and the useful arts" (i.e., the physical sciences as opposed to social sciences, for example) and therefore are found to be non-statutory subject matter. For a process claim to pass muster, the recited process must somehow apply, involve, use, or advance the technological arts. The steps of claims 1-7 could be carried out solely in the mind of a human and therefore do not necessarily apply, involve, use, or advance the technological arts. Furthermore, since these steps are subjectively performed in the mind of a human, they are mere abstract ideas without a clear useful, concrete, and tangible result.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3623

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 5-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Although indicated as an "original" claim, Applicant appears to have amended claim 5 to be dependent from claim 5 instead of claim 1. Claim 5 cannot be dependent from itself; therefore, the claim is vague and indefinite. Claims 6 and 7 are dependent from claim 5 and therefore inherit the same rejection under 35 U.S.C. § 112, 2nd paragraph.

Appropriate correction is required.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
